

January 2005

Dear customer:

The main purpose of HP Disk File Optimizer V2.9 is to extend the compatibility of our product to include the new release of OpenVMS 8.2 and to update our general DFO audience with current bug fixes. See release notes for listing.

Contents of this Kit:

- Disk File Optimizer (DFO) V2.9 software for OpenVMS Alpha, VAX and IA64 systems.
 - DFO V2.9 documentation:
 - * Guide to Operations
 - * Release Notes
 - * Installation Guide
 - * SPD
 - * Cover Letter

Thank you for your continued interest in our Disk File Optimizer product.

Sincerely,

OpenVMS Product Management
